This is a marketing material. Please refer to the M/F Prospectus and to the Key Information Document before making any final investment decision.

Investment Objective

The Fund aims to achieve a return based on its investment policy, over the medium to long-term, which derives from investments in a diversified portfolio of stocks, fixed income securities (bonds) and domestic money market instruments.

Investment Policy

In order to achieve its investment objective, the Fund intends to invest the most of its assets mainly in equities of Greek companies and Greek fixed or floating rate government and corporate bonds, treasury bills and other related debt instruments, listed or traded on the domestic and international capital and money markets. The Fund is actively managed and the investment strategy depends on the market conditions. In the context of leveraging and/or hedging the portfolio, the Fund may take long or short positions in derivative instruments mainly on stock exchange indices or equities. Specifically for 2026, the Fund intends to invest most of its assets in stocks with high dividend yields, in the banking industry, in energy companies, in the construction sector and in corporate bonds with high coupons and yields.

Dividend Policy

The Fund intends to distribute annually as a dividend to its unitholders, the total proceeds from interest and dividends, as well as the profits from the sale of its assets, having previously deducted the total expenses and any capital losses of the financial year, as mentioned in article 13 of the Regulation and the Prospectus.

Investor Profile

The Fund mainly targets medium to long-term investors seeking both income and capital appreciation, through a diversified portfolio, consisting mainly of stocks and domestic bond issues and willing to take a high level of investment risk.
