PRIIP manufacturer: Optima asset management MFMC, a member of Optima Bank Group - www.optimaadedak.gr

Call for more information: +30 213 0101200

Optima asset management MFMC, management Company of this UCIT, is licensed in Greece and is subjected to supervision by the Hellenic Capital Market Commission.

Date: 31/03/2026

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years

Investment example: 10.000 EUR

Performance scenarios		1 year	5 years (Recommended holding period)
Minimum	There is no minimum guaranteed return.		
Stress scenario	What you might get back after costs	8,230€	7,990€
	Average return each year	-17.7 %	-4.4 %
Unfavourable scenario	What you might get back after costs	8,290€	10,040€
	Average return each year	-17.1 %	0.1 %
Moderate scenario	What you might get back after costs	10,580€	11,140€
	Average return each year	5.8 %	2.2 %
Favourable scenario	What you might get back after costs	12,180€	16,150€
	Average return each year	21.8 %	10.1 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you could lose at extreme market conditions. The unfavourable scenario occurred for an investment between September 2021 - September 2022 (if you redeem after 1 year) and between July 2021 - March 2026 (if you redeem after 5 years). The moderate scenario occurred for an investment between June 2019 - June 2020 (if you redeem after 1 year) and between September 2018 - September 2023 (if you redeem after 5 years). The favourable scenario occurred for an investment between January 2017 - January 2018 (if you redeem after 1 year) and between April 2016 - April 2021 (if you redeem after 5 years). This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you may have to pay extra costs.

	Average return each year	7.3 %	2.8 %
Favourable scenario	What you might get back after costs	14,560€	21,410€
	Average return each year	45.6 %	16.4 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you could lose at extreme market conditions. The unfavourable scenario occurred for an investment between September 2021 - September 2022 (if you redeem after 1 year) and between July 2021 - April 2025 (if you redeem after 5 years). The moderate scenario occurred for an investment between August 2020 - August 2021 (if you redeem after 1 year) and between January 2019 - January 2024 (if you redeem after 5 years). The favourable scenario occurred for an investment between June 2015 - June 2016 (if you redeem after 1 year) and between June 2015 - June 2020 (if you redeem after 5 years). This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you may have to pay extra costs.

Date: 30/04/2024

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years

Investment example: 10.000 EUR

Performance scenarios		1 year	5 years (Recommended holding period)
Minimum	There is no minimum guaranteed return.		
Stress scenario	What you might get back after costs	4,620€	4,900€
	Average return each year	-53.8 %	-13.3 %
Unfavourable scenario	What you might get back after costs	6,960€	9,370€
	Average return each year	-30.4 %	-1.3 %
Moderate scenario	What you might get back after costs	10,700€	14,380€
	Average return each year	7.0 %	7.5 %
Favourable scenario	What you might get back after costs	14,560€	21,410€
	Average return each year	45.6 %	16.4 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you could lose at extreme market conditions. The unfavourable scenario occurred for an investment between June 2014 - June 2015 (if you redeem after 1 year) and between July 2021 - April 2024 (if you redeem after 5 years). The moderate scenario occurred for an investment between June 2020 - June 2021 (if you redeem after 1 year) and between November 2016 - November 2021 (if you redeem after 5 years). The favourable scenario occurred for an investment between June 2015 - June 2016 (if you redeem after 1 year) and between June 2015 - June 2020 (if you redeem after 5 years). This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you may have to pay extra costs.

	Average return each year	6.5 %	8.5 %
Favourable scenario	What you might get back after costs	14,560€	21,410€
	Average return each year	45.6 %	16.4 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you could lose at extreme market conditions. The unfavourable scenario occurred for an investment between June 2014 - June 2015 (if you redeem after 1 year) and between July 2021 - May 2023 (if you redeem after 5 years). The moderate scenario occurred for an investment between August 2017 - August 2018 (if you redeem after 1 year) and between October 2016 - October 2021 (if you redeem after 5 years). The favourable scenario occurred for an investment between June 2015 - June 2016 (if you redeem after 1 year) and between June 2015 - June 2020 (if you redeem after 5 years). This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you may have to pay extra costs.

Product

Optima greek income bond fund
