Investment Objective

The Fund has a targeted maturity of 5 years, after which it is liquidated, and the money is credited to the unitholders. Its goal is to achieve a return in a 5-year horizon, from income and capital appreciation, mainly through investments in a diversified portfolio of Euro-denominated bonds.

Investment Policy

The Fund intends to invest its assets mainly in government and corporate bonds operating in both domestic and regulated foreign markets with an average maturity of approximately 5 years. The Fund's strategy is active and employs a suitable selection of bonds to be held in the portfolio until maturity. In the event that bonds maturing before the 5-year targeted maturity, they will be replaced either by other bonds or by money market instruments.

Dividend Policy

The Fund will distribute an annual dividend to its unitholders in the form of cash. For the year 2025, the estimated dividend would be 3,10%.

Investor Profile

The Fund is mainly suitable for investors with a 5-year horizon who expect income from a diversified bond portfolio consisting mainly of Euro-denominated bonds and are willing to accept a corresponding level of investment risk.
